DELIVERY #123
MEDIUM PS
WELL DONE

The **Driver Run Tag** (left) is printed at the time the run is assigned to the driver and provides a single source of all vital run information. Detailed street, and optionally sector, delivery instructions provide clear concise directions for hard to find areas. The run summary footer will eliminate costly mistakes by providing drivers with a simple way to confirm all items on each trip.

The pizza box **Blaster Label** (above) provides a fast, easy to read tag for every order. Since no ribbon is required every label comes out looking great. This label has been designed to display item information in a vertical format for the oven tender, to make boxing decisions quickly and accurately. This micro footprint thermal printer packs 1000 labels on a single easy-to-load, jam free, drop in roll.

Microsoft MapPoint®
(shown on back) dovetails fast accurate delivery maps and driving instructions.
